

2022 JCI's Most Frequently Scored Standards

Report Information

- 1. Scope of report** – Hospital and AMC surveys globally
- 2. Dates of surveys** – Report is based on all Final Survey Findings Report (SFR) from January 01-December 31, 2022. Dates are based on the day the Final SFR were posted to the organization's Direct Connect.
- 3.** For more information on the Standards and Measurable Elements (ME's), please refer to this [document](#).

Report Structure

1. Slide 4 presents the Top 10 Most Frequently **Scored Standards**
2. Slides 5- 14 present most frequently **scored MEs in each standard**
3. Color coding is based on **SAFER matrix** placement generated from each SFR

● L-L ● L-P ● L-W ● M-L ● M-P ● M-W ● H-L ● H-P ● H-W

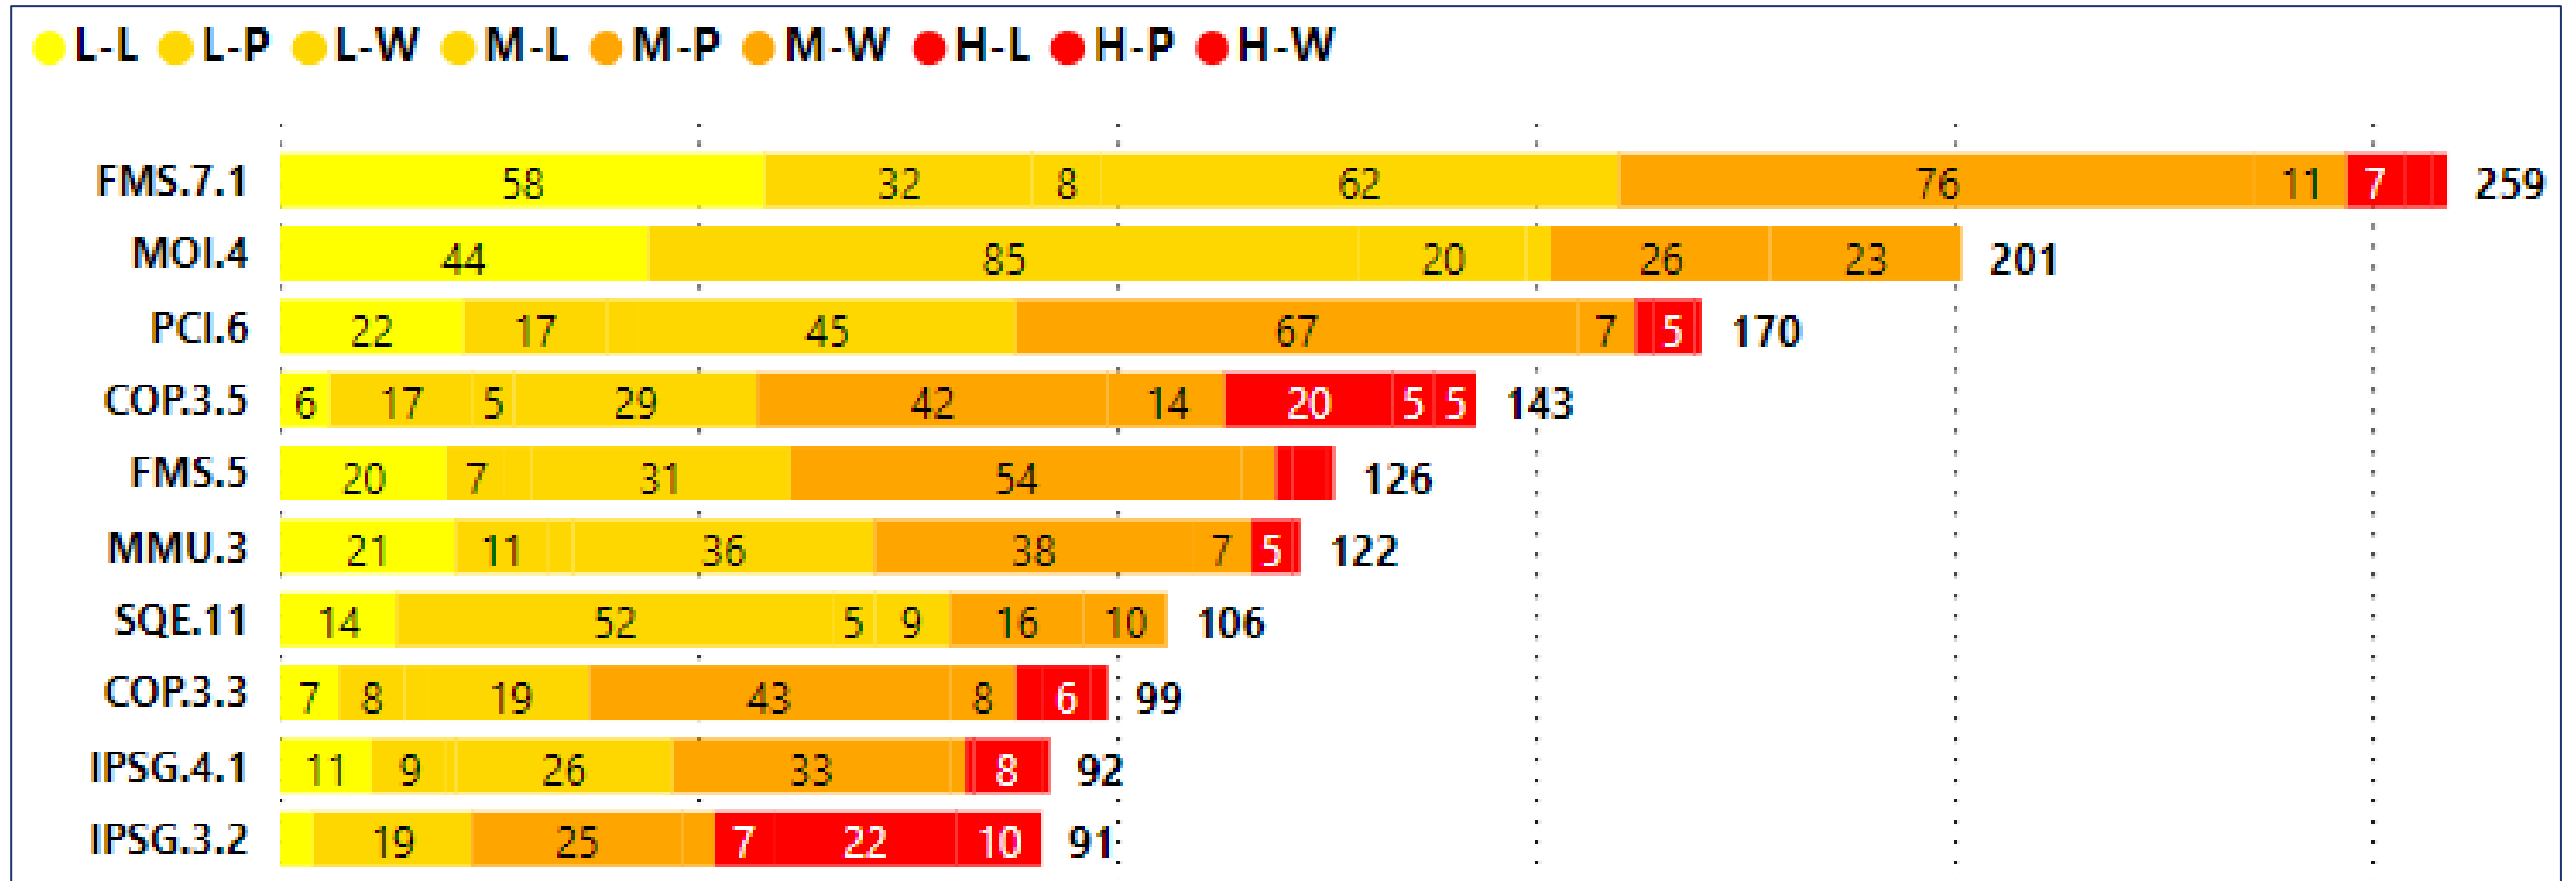

L-L: Low Limited
L-P: Low Pattern
L-W: Low Widespread

M-L: Moderate Limited
M-P: Moderate Pattern
M-W: Moderate Widespread

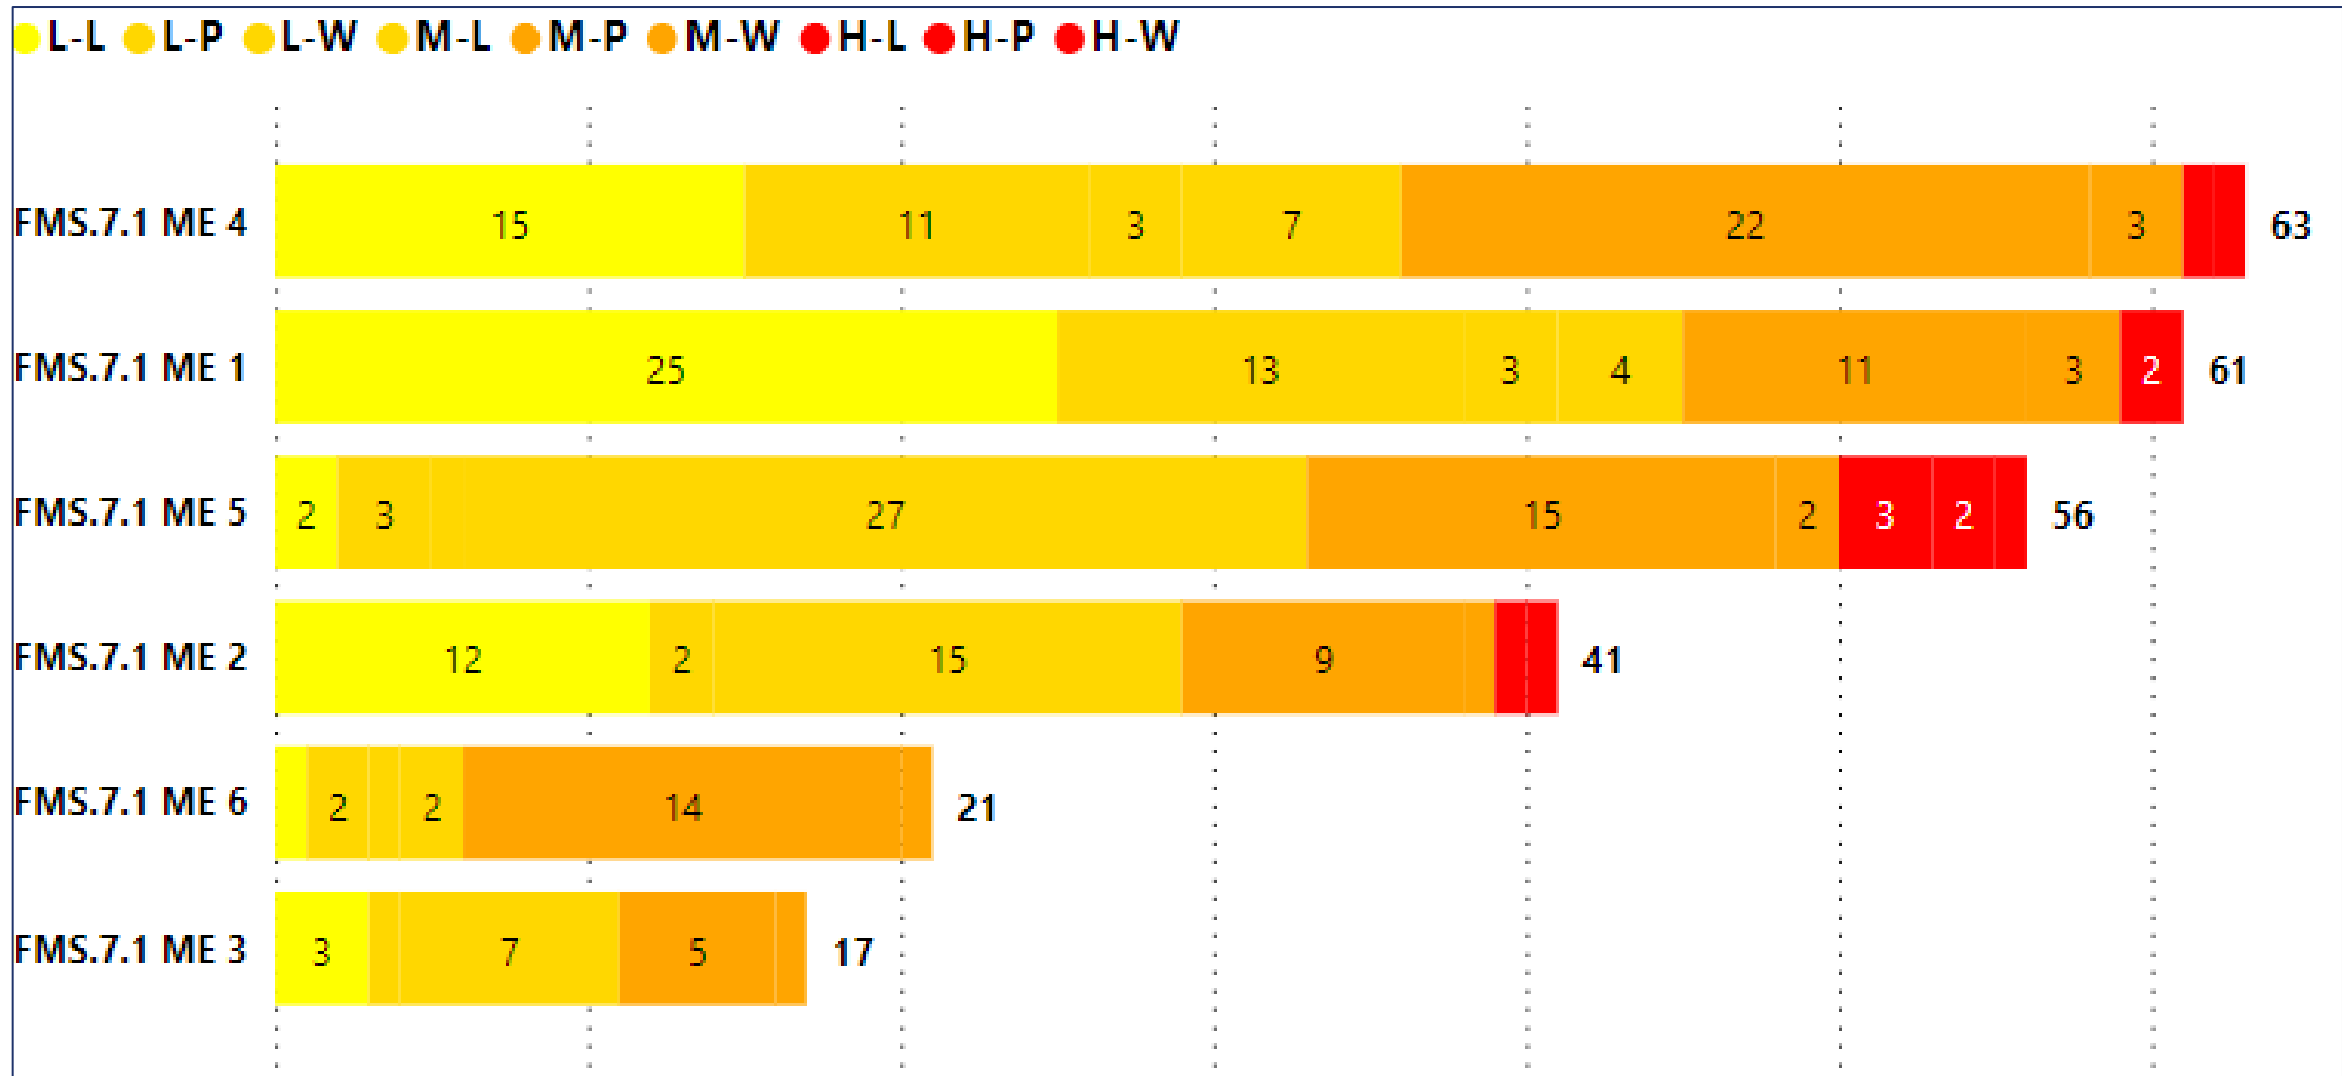

H-L: High Limited
H-P: High Pattern
H-W: High Widespread

NOTE: Numbers may not always show in each SAFER matrix color grid (**for example**, FMS.7.1, ME 4). This is due to scaling of figure from the report. However, the total frequency of each scored standards and ME is provided (**for example**, FMS.7.1, ME 4 was scored 63 times)

Top 10 Frequently Scored Standards

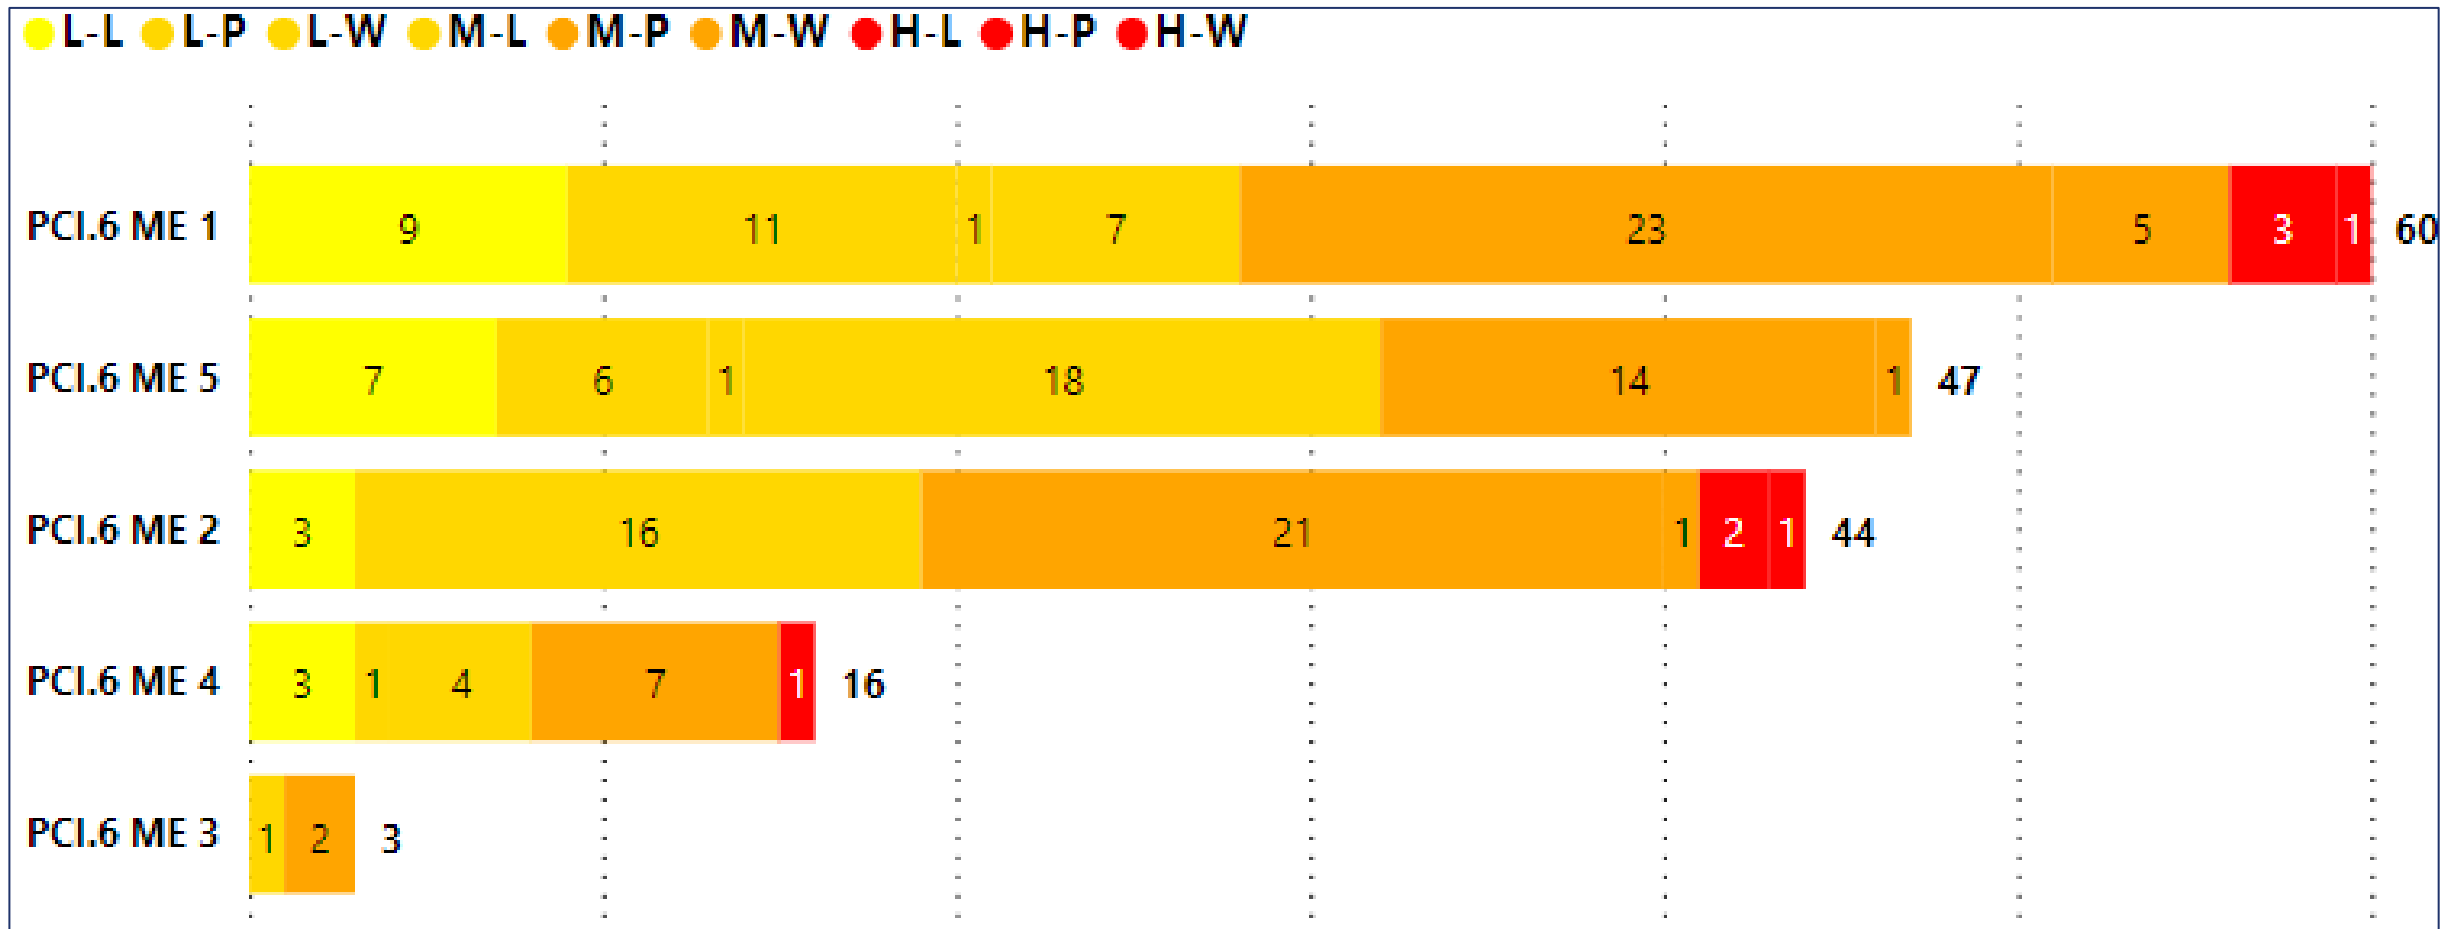

Frequently Scored ME: **FMS.7.1**

Frequently Scored ME: MOI.4

Frequently Scored ME: PCI.6

Frequently Scored ME: COP.3.5

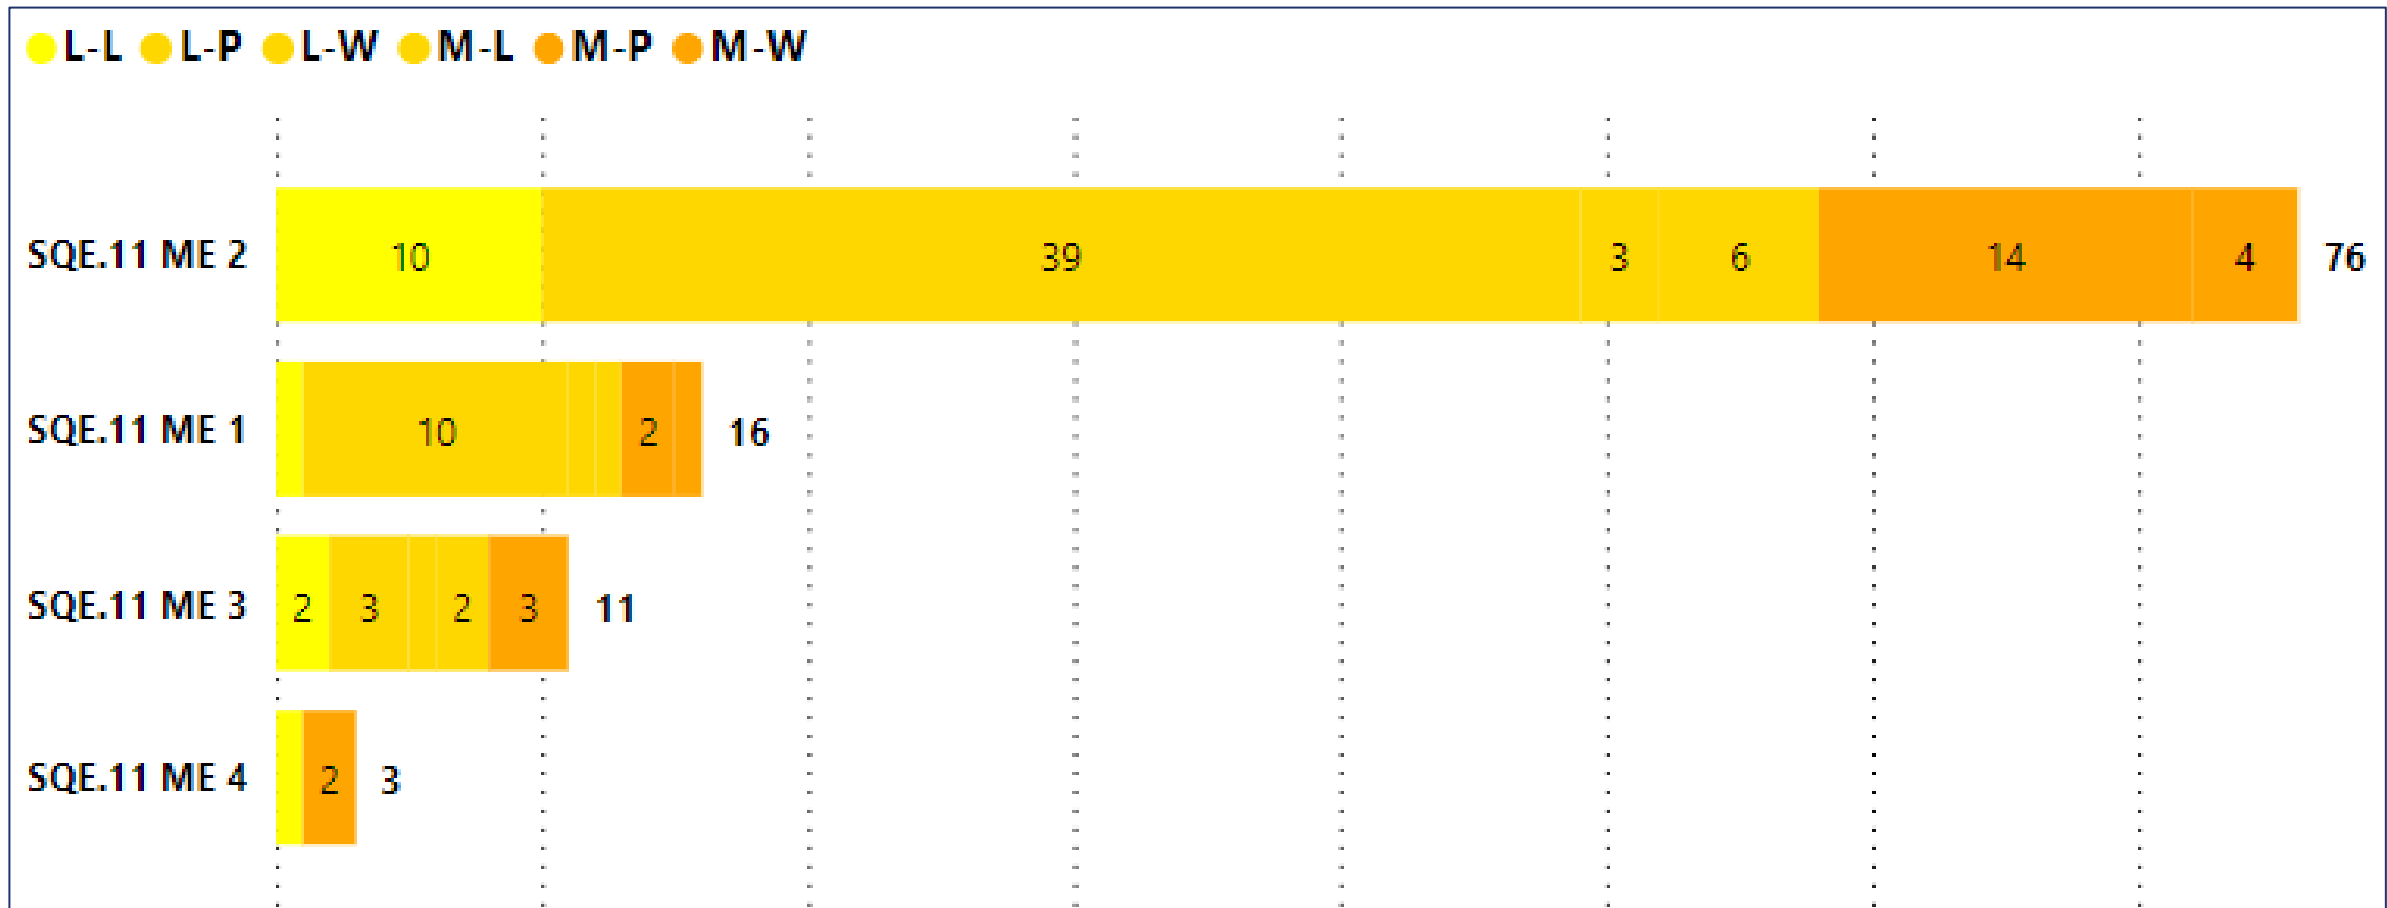

Frequently Scored ME: FMS.5

Frequently Scored ME: **MMU.3**

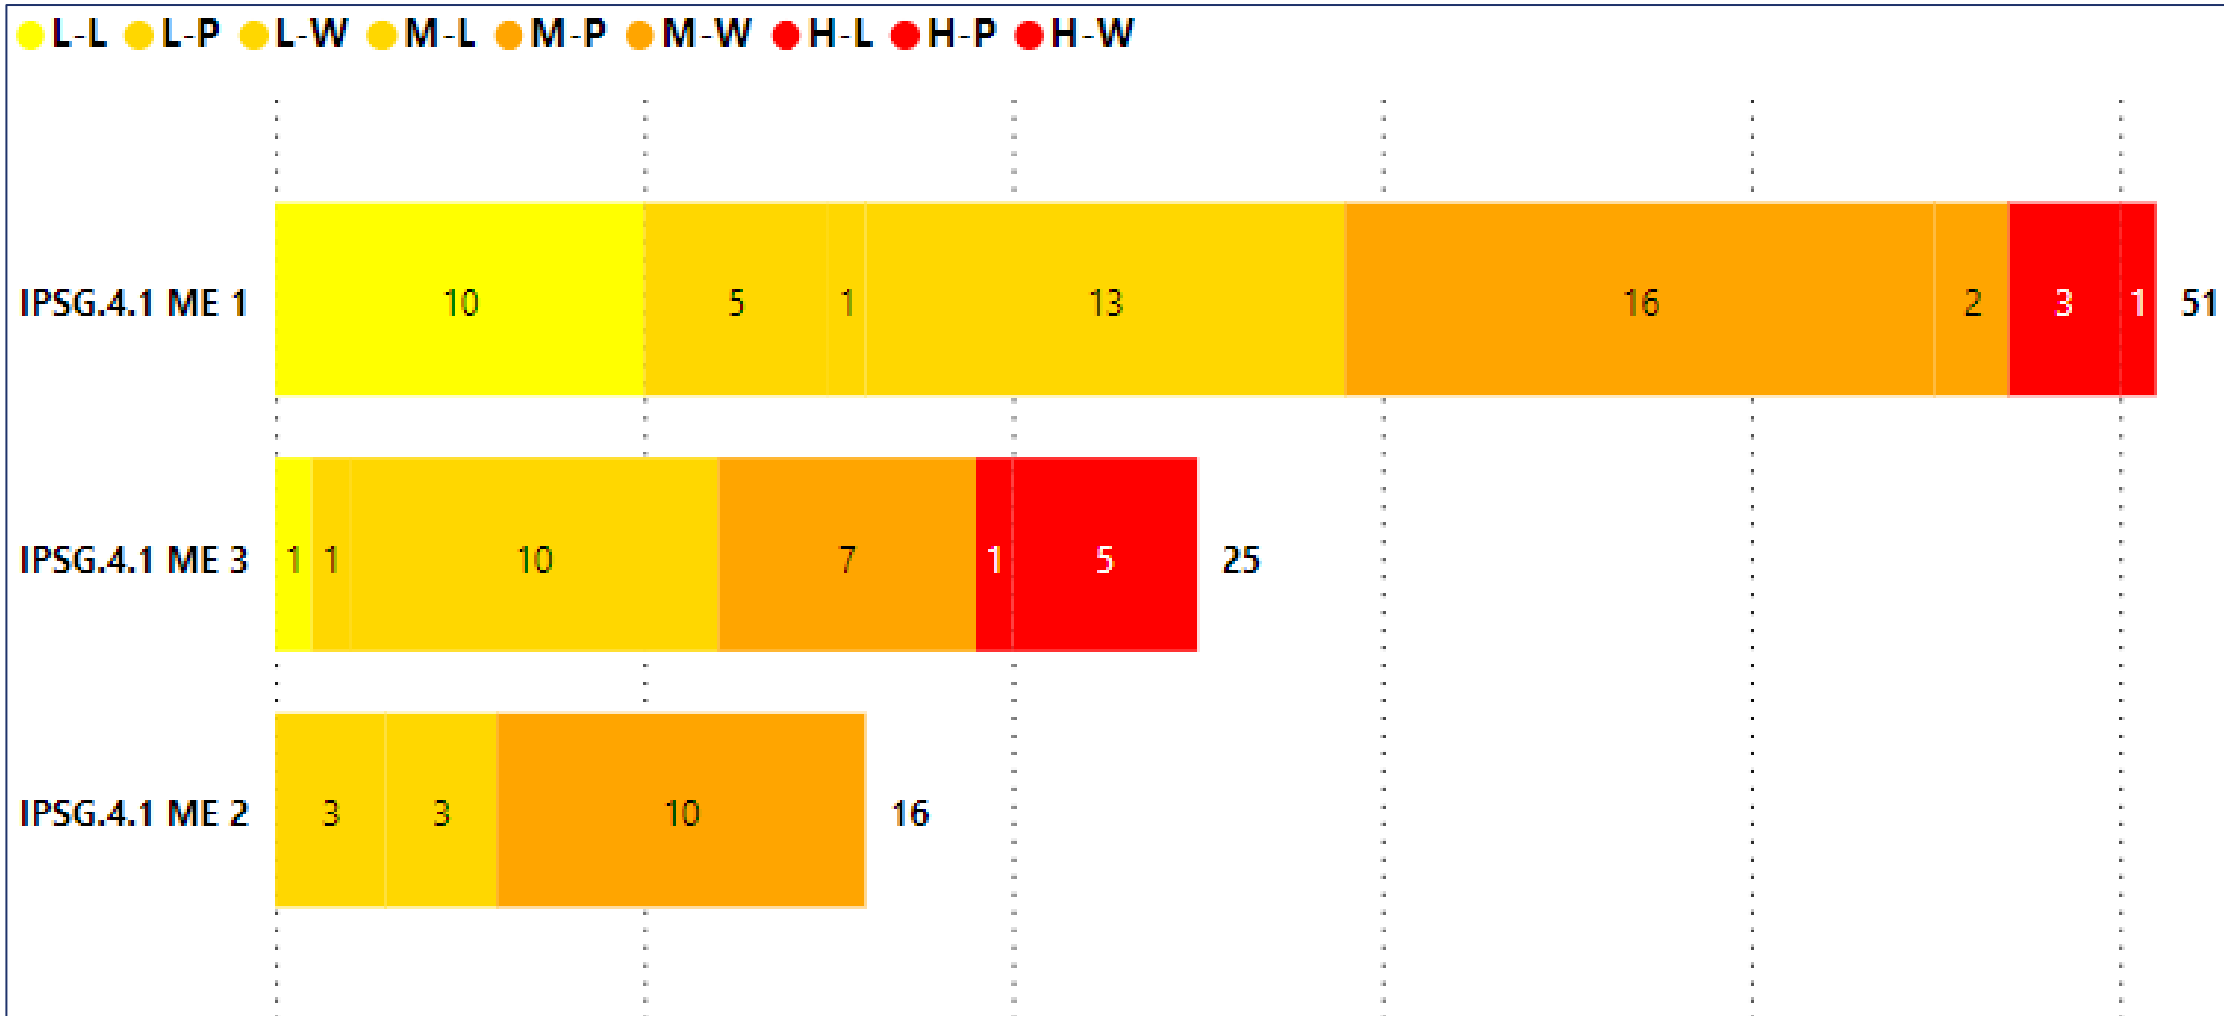

Frequently Scored ME: **SQE.11**

Frequently Scored ME: COP.3.3

Frequently Scored ME: IPSG.4.1

Frequently Scored ME: IPSG.3.2
